

Frette White

A woman with blonde hair and bangs, wearing a white button-down shirt, is smiling and holding up large pieces of white fabric, likely linens, in front of a blurred city skyline. The scene is brightly lit, suggesting a high-rise apartment or hotel room. A gold diamond-shaped frame is overlaid on the center of the image, containing the brand name and year.

The Finest Linens in the World

# YOUR WORLD IN WHITE

IT IS A UNIVERSALLY ACKNOWLEDGED TRUTH THAT WHITE GOES WITH ANYTHING. IT CAN DRAW OUT THE WARMTH IN COOLER COLOURS, TRANSFORM SUBTLE SHADES INTO BOLD ACCENTS, AND BRING LIGHT INTO DARKNESS. WHITE CAN RAISE THE TEMPERATURE OR BRING IT DOWN A DEGREE; IT CAN EASE YOU INTO SLEEP AT NIGHT AND HELP WAKE YOU UP IN THE MORNING; CALM YOUR MIND OR ENERGISE YOUR SENSES. OF ALL SHADES IN THE SPECTRUM, IT IS THE MOST VERSATILE. WHITE – MAGICAL, INSPIRING WHITE – IS ENTIRELY WHAT YOU MAKE IT.

BUT WHITE DOESN'T NEED HELP FROM OTHER COLOURS TO WEAVE ITS WONDERS; IT CAN ALSO STAND ALONE. TIMELESS, NEVER OUT OF FASHION, AN ALL-WHITE BED CAN BE CLASSIC OR CONTEMPORARY, MASCULINE OR FEMININE. THIS CATALOGUE IS A TRIBUTE TO FRETTE'S WORLD OF WHITES AND IVORIES, AND AN EXPLORATION OF THE SUBTLITIES OF ITS SHADES AND THE STRIKING SIMPLICITY – AND THE VARIETY – OF EFFECTS IT CAN CREATE.

TO THE MAKER OF FINE LINENS, HOWEVER, WHITE CAN BE UNFORGIVING. ANY IMPERFECTION IN THE WEAVE WILL BE MAGNIFIED, ANY FLAW IN THE FABRIC EXPOSED. FORTUNATELY, OVER 150 YEARS OF ITALIAN CRAFTSMANSHIP HAVE ENABLED FRETTE TO ENSURE THAT EVERY MATERIAL WE WORK WITH, WHETHER SILK OR SATEEN, POPLIN OR PERCALE, LINEN OR LACE, CAN BE PERFECTLY MADE IN PRISTINE WHITE. YOUR BEDROOM MAY NOT NEED COLOUR TO HAVE CHARACTER – BUT IT DOES NEED QUALITY.

# FRETTE FABRIC GUIDE

## PERCALE

Cool and crisp, percale fabric is created with a close, simple weave of one thread over and one thread under. The finer the thread, the lighter and softer the fabric. Percale is found in our Frette Hotel collection ranges featured in our catalogue.

## POPLIN

Originally created in Avignon for the Pope, poplin is a light but densely woven mercerised cotton (originally wool) with a fine weft and an even finer warp. Frette's poplin is woven from an uncommonly fine 100 thread, making it feather-light and exceptionally soft.

## SATEEN

A soft, light, lustrous fabric with a loose interlacing weave in a fine, dense thread, creating a silky feel and a higher shine. Frette chooses the longest, thinnest and strongest threads to produce the optimum finish.

## ULTIMATE SATEEN

Longer cotton fibres make a more uniform, resistant and smoother thread. The longest, thinnest and strongest cotton fibre is Giza 45, made from cotton which is grown in small quantities in the Nile delta in Egypt. Frette introduced this 1,000 thread count fabric in 2016 called 'Ultimate sateen cotton'.

## LINEN

Woven from a natural fibre extracted from flax, linen has a fresh feel, a silky shine. Linen can absorb up to 20% of its weight in water without feeling moist, making it especially appropriate for fabrics that come into close contact with the skin. Perfect for warm and humid climates.

## JACQUARD

The intricate patterns of jacquard fabrics were first made possible by a machine invented by Joseph Marie Jacquard, which used the patterns of holes in card to control a loom's weave. Thanks to Edmond Frette's acquisition of this technology in 1800, Frette has become globally renowned for its beautifully complex jacquard designs.

## SILK

Obtained by unreeling silkworm cocoons, silk filaments range from 300 to 1,600 yards in length. Strong, absorbent and cooling in summer, silk also helps maintain body temperature, making it snug and cosy in winter too. Sourced in Asia, Frette's silk is exclusively spun and woven in Italy.
